

2686 - Helping Nolberto

Description

As we know, the people who live in the eastern region of the country add unnecessary words S.

The Nolberto's student living in the province of Santiago want to talk to a girl in Havana, for which you want to correct your vocabulary, eliminating all S that are at the end of each word. What fool anyway going to say some bad words.

You, who are his friend wants to help developing a program that will help you to correct your vocabulary according to the specifications described earlier.

Input specification

The first line contine an integer n ($0 < n < 1000$). Then for each n next line a string composed of the alphabet 'a'- 'z' and 'A'- 'Z' including blanks (no more than one space between words), each string with no more than 100 characters each.

Output specification

Modifying text displays the words that meet the specifications of Nolberto and changing the text to uppercase.

Sample input

```
2
Mientras conversamos las estrellas estan
de lo mas bonitas
```

Sample output

```
MIENTRA CONVERSAMO LA ESTRELLA ESTAN
DE LO MA BONITA
```
